Hostel Accommodation System

The primary purpose of this website project is to execute a complete design and development of a professional HOSTEL ACCOMMODATION SYSTEM website with the help of various modules.
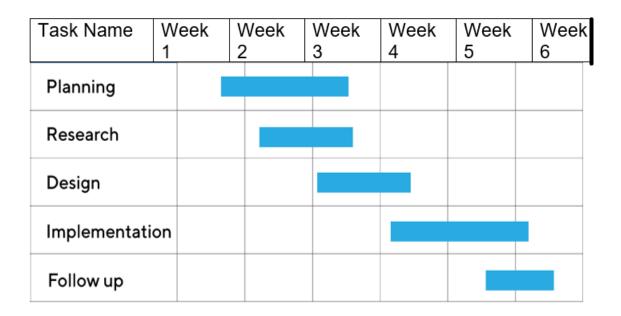

IMPORTANT ELEMENTS OF A WEBSITE:

- ➢ Navigation
- ➢ Visual Design
- ➢ Content
- ➢ Web Friendly
- ➢ Information Accessibility
- ➢ Interaction

DIFFERENT MODULES OF THE WEBSITE:

- ❖ **Top Header:** The main navigation panel shows the University Logo and an idea about site which legitimate user is surfing out. This panel helps the user to access every menu item from any page of the website.
- ❖ **Students Panel:** This panel contains a different type of options which helps the students for easy applying for hostel, separate girls and boys hostel facility, and your account information. This panel is created with the help of drop-down menu and tables.
- ❖ **Main Webpage Content:** This section is divided into three different parts with the help of Frames.
    - The first section contains information about hostel fee and other important points before enrolling to the hostel.
    - The second section contains the registration form link, check your Status link, and benefits of staying in a hostel.
    - The third section contains information about various facilities inside the hostel.
- ❖ **The Bottom Footer:** The footer of the site contains various ways to contact us. Right to it, it contains a textbox in which the user can enter his/her registration number to give suggestions.

WORK PLAN:

Task Name	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6
Planning		▬	▬			
Research			▬			
Design				▬		
Implementation					▬	▬
Follow up						▬

RESPONSIBILITIES:

Registration No	Name of Members	Responsible For:
11918806	Jaspreet Singh	Establishing a website (Writing full Coding), working with JavaScript and jQuery and updating info on regular basis.
11916928	Ritesh Singh	Suggesting ideas and helps in methods over designing part of webpage(using css).
